

## LINGERIE & SWIMWEAR DESIGN

This course is a specialization in the world of fashion.

### Objective of Instruction

The Lingerie & Swimwear Design Course will allow students to learn how to draw lingerie and swimwear based on their own creativity, as well as keeping the practical use of the item.

This course will allow students to approach the world of Lingerie in a professional manner – taking care of designing and of fabric 's construction, in reference to the target of a certain type of market.

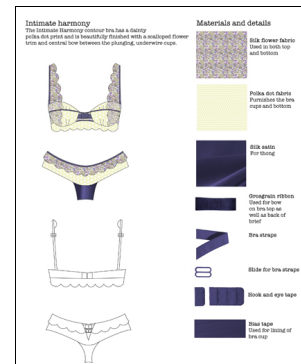

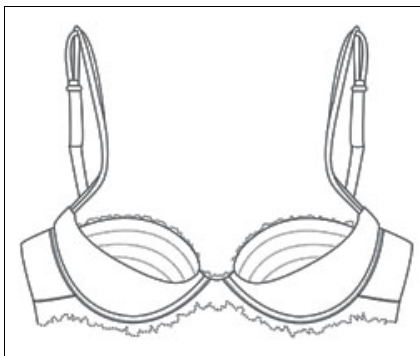

### Program

The course is gaining by a manual part - in which students will have to create an own prototype of human figure and to draw the main shapes of lingerie and swimwear by free hand - and a computer assisted part, in which students will insert their own prototype into the pc and will start to give the colour through Photoshop for reaching a more realistic result.

Illustrator will be used to create Technical Sheet.

Creative Final Workshop: designing a collection based on an individual theme.

Some example
