Women Fashion Design Course 3 month

Course Content

Photoshop Lessons - Illustration Lessons - Freehand Drawing - Computer Skills

The Woman's Wear Design Course is to prepare the student for the professional reality of the fashion world, not only developing the individual creativity, but also to acquire the necessities of the Fashion Industry.

This course is combined also with the COLLECTION DESIGN SIMULATION program designing in combination with actual fabrics.

Creativity is difficult to be explained , especially in fashion. For example the design of a dress appears only fully in the mind of a designer. The designer then has to communicate his creation through sketches but it must be precisely expressed to suit the mood of the fabric. You must have knowledge of fabric in order to design and sometimes designs are based on the textile in the professional world.
